

Edoardo Dallanave, PhD

PERSONAL INFORMATION

Name and last name Edoardo Dallanave
Work address Department of Earth Sciences “Ardito Desio”
University of Milan (Italy)
Via Mangiagalli 34, 20133 Milan (IT)
Phone (office) +39 02 503 15508
E-mail (work) edoardo.dallanave@unimi.it
Webpage <https://edoardodallanave.wixsite.com/mysite>
Place and date of birth Milan (Italy), 25 November 1976

MAIN RESEARCH INTERESTS

I am an Earth scientist specialized in paleomagnetism and rock-magnetism. I am interested in chronology, paleogeographic reconstructions, paleoceanography, and magnetic properties of rocks. My interest in paleogeography has been largely addressed to the southwest Pacific area (Zealandia continent) as well as the Alpine Tethys area during the Meso-Cenozoic, as tested by several publications and funded proposals for a total of ~1M€. Among the different topics, I am currently working on the stratigraphic records recovered during IODP Exp. 371 and IODP Exp. 392, on which I sailed as on-board Paleomagnetist, as well as on a R-based web platform to facilitate analyses of paleomagnetic data from exposed rocks and deep-sea sediments. Within the IODP frame, I am part of an international working group conducting research on past climate examples that, with the current CO₂ emission rates, are the best analogous in the geological past of the possible near future of our planet.

ACADEMIC EXPERIENCE

Since June 2024 Researcher (Assistant Professor) at the Department of Earth Sciences “Ardito Desio” of the University of Milan (Italy).
Oct. 2018–May 2024 Principal Investigator (Research Associate) at the Faculty of Geosciences (FB5) of the University of Bremen (Germany); Guest Scientist from Feb. to Aug. 2021 and from Dec. 2023.
March 2012–March 2018 Principal Investigator (Research Associate) at the Department of Earth and Environmental Sciences of the Ludwig Maximilians University (München, Germany).
March 2010–Feb. 2012 Postdoctoral Research Fellow at the Geosciences Department of the University of Padova (Italy).
Jan. 2007– Dec. 2009 Ph.D. student at the Geosciences Department of the University of Padova (Italy).

AWARDED RESEARCH FUNDS

Research Grant IODP-Italy 2025
9,947 €
Principal Investigator
Astronomical tuning of the Late Cretaceous geomagnetic polarity time scale (from top Chron C34n to base Chron C30n)
Co-proponent: Dr. T. Westerhold (MARUM – University of bremen, Germany).
DA1757/3-1
Sept. 2021–Dec. 2023
Grant: 221,000 €
Principal Investigator
Dissecting the Jurassic monster polar shift: Paleomagnetic analyses of Middle–Late Jurassic sedimentary rocks from Ethiopia.
Fully funded by the Deutsche Forschungsgemeinschaft (DFG) for 24 months at the University of Bremen (Germany).
DA1757/2-1
Oct. 2018–Dec. 2020
Grant: 192,000 €
Principal Investigator
Exploring the coupling between plate tectonic and climate evolution: Eocene–Oligocene chronology of the southwest Pacific.
Fully funded by the Deutsche Forschungsgemeinschaft (DFG) for 24 months at the University of Bremen (Germany).
DA1757/1-1
March 2015–Feb. 2018
Grant: 274,000 €
Principal Investigator
Early Cenozoic climate and tectonic evolution of the southwest Pacific Ocean.
Fully funded by the Deutsche Forschungsgemeinschaft (DFG) for 36 months at the LMU München (Germany).

BA1210/19-1, -2 **Main proponent and executor**
March 2012–Feb. 2015 *Magnetostratigraphy and rock-magnetism of the Mead Stream section, New Zealand: a tool to investigate the temporal and spatial evolution of a Late Cretaceous–early Eocene southern Pacific continental margin.*
Total Grant: 289,000 €
 Fully funded by the Deutsche Forschungsgemeinschaft (DFG) for 36 (24+12) months at the LMU München (Germany).

EDUCATION & DEGREES

November 2020 Italian Habilitation for Associate Professor in Stratigraphic Geology.

March 2010 Ph.D. in Earth Science.
Awarding institution: University of Padova (Italy).

October 2004 Degree in Earth Science.
Awarding institution: University of Milan (Italy).

BOARDS & COMMITTEES MEMBERSHIP

Editorial Board membership Associated Editor of *New Zealand Journal of Geology and Geophysics* (Wiley Publishing Co.)

MG³–SSC Since 4th April 2025, Member of the **Magellan³ Science Steering Committee** of the International Ocean Drilling Program (IODP³)

CBEP12 (August 2022) Member of the Scientific Committee of the Climate and Biotic Events of the Paleogene 12; Co-organizer and Chair of the meeting **Theme 4: “Tectonics, Surface Environments and Hydrological Processes”**, consisting of two sessions:
 4.1- Source-to-sink sedimentation during warm intervals of the Paleogene
 4.2- Impact of paleogeography on our understanding of Paleogene Climate
<https://www.marum.de/Forschung/Climatic-and-Biotic-Events-of-the-Paleogene-2020.html>

STRATI2019 (July 2019) Convener and co-chair of the General session on Stratigraphy (ST11.4)

INTERNATIONAL OCEAN DISCOVERY PROGRAM (IODP)

IODP Exp. 392 (Feb. 5–Apr. 7 2022) Onboard Paleomagnetist during **IODP Exp. 392** “Aguilhas Plateau Cretaceous Climate” on the vessel JOIDES Resolution.
https://iodp.tamu.edu/scienceops/expeditions/agulhas_plateau_climate.html

IODP Exp. 371 (July 26–Sept. 27 2017) Onboard Paleomagnetist during **IODP Exp. 371** “Tasman Frontier Subduction Initiation and Paleogene Climate” on the vessel JOIDES Resolution.
https://iodp.tamu.edu/scienceops/expeditions/tasman_frontier_subduction_climate.html

OUTREACH & TEACHING

Alongside my research activities, I view teaching and outreach as essential pillars of my academic journey. I am committed to fostering curiosity, critical thinking, and a passion for discovery by engaging with students at the BSc, MSc, and PhD levels through lectures, seminars, and mentorship.

University of Milan (Italy) **Sedimentary Succession and Their Natural Resources for the Energy Transition**
 Frontal lectures (16h), Environmental Change and Global Sustainability (ECGS) Master Program, Summer Semester.

Geological Environment and Structures: Stratigraphic geology module
 Frontal lectures (16h), Geophysics master Program, winter semester.

Paleomagnetism and Paleogeography: From the geomagnetic polarity time scale to paleogeographic reconstructions
 Frontal lectures (15h), 17–19 December 2024 in the frame of the doctorate school program of the Earth Science Department.

University of Bremen (Germany) **MARUM - ECORD Training Course & Summer School**
 Paleomagnetism Module
 ➤ 2023, 4-15 September
 ➤ 2023, 13-17 March
 ➤ 2019, 25-29 March

Applied Geophysics: Methods

15h of frontal lectures at the Faculty of Geosciences. Winter semester 2020.

Marine environmental archive project

3h weekly lectures, summer semester 2019, Faculty of Geosciences.

Supervisor of several Data Analysis projects as part of the MSc program.

University of Padova (Italy, INVITED) **Paleomagnetism: from the geologic time scale to paleogeographic reconstructions**

Short course for the graduate program in Geology, 10h of frontal lectures, 14–18 November 2022, Department of Geosciences.

Ludwig Maximilians University (Munich, Germany) **Paleomagnetism: application to magnetostratigraphy and paleogeography.**

2h weekly lectures, summer semester 2016, the Department of Earth and Environmental Sciences.

FIELDWORK

Fieldwork has been a cornerstone of my scientific career. I have led and participated in numerous field campaigns focused on geological mapping, stratigraphic section logging, and sampling, often conducted in challenging and remote environments. Below, I highlight the most significant campaigns, with associated publications listed in the Publications section.

Ethiopia (2022) Preliminary 15-days campaign near Dejen to perform description, logging, and sampling for magneto-biostratigraphy of Upper Jurassic sections exposed in the Blue Nile valley.

New Caledonia (2014–2018) Three campaigns around the main island, for a total of 6 weeks, to perform logging and description of sedimentary sections, and sampling for paleomagnetic and biostratigraphic studies.

New Zealand (2012–2020) Five campaigns, for a total of ~10 weeks, in different parts of both the North and the South Islands, to perform mapping, logging, description, and sampling of Cenozoic sedimentary sections.

Venetian Southern Alps (2007–2018) Several campaigns, related also to my doctorate work, in order to perform logging, description, and sampling for magneto-biostratigraphy of several sedimentary sections cropping out in the Piave River valley (Belluno).

Northern Alps Field campaign, in high mountain environment, to log and sample Jurassic and Cretaceous sedimentary rocks belonging to the Briançonnais paleogeographic domain (Alpine Tethys).
